

Nomination for ALL Executive Council

Carol Hughes

Biography

I started teaching languages in 1978 and have taught both French and German during my career. I joined ALL in 1995 and am Director of Languages at a girls' grammar school, a former language college, having taught for 16 years in my previous school, a mixed comprehensive.

Supporting statement

I have been a member of ALL since 1995 and more recently a member of the German committee and the Essex and East Anglia branch committee. I fully support the work of ALL and look for opportunities, when speaking at local events, to publicise the association. I regularly attend Language World and have in the past presented a session on using the IWB. I am also involved in ITT and encourage trainee teachers to take up membership of ALL. I believe that the association through its membership is a strong voice representing the position of languages in our society today.
