

## **Nomination for ALL Executive Council**

**Helen Myers**

### **Biography and supporting statement**

I am a long-standing member of ALL, totally committed to ensuring that language teachers can be supported in their important role and fairly represented through having a voice in an independent organisation.

I am chair of ALL London Branch, overseeing successful events which regularly attract between 80 and 150 delegates, many of whom are members of ALL or who become members through their positive experience.

I am experienced in representing language teachers at a local and national level, thanks to the opportunities offered by my membership of ALL (including a period as President) and my extensive online presence and senior management role within a Language College.

I feel that my experience, skills and knowledge acquired as a practising teacher and manager in a large comprehensive school, and as an active member of ALL, networking with people from all sectors, place me in a favourable position to be considered for a further period as Executive Council member and I would relish that opportunity.
