

Helen Wheelwright

Biography

I always loved languages at school so I took French and German at Bristol, where I enjoyed organising all sorts of events for Frogsoc. After teaching EFL for a few years I realised that I wanted to teach MFL just because I enjoy it so much. I have taught in all sorts of educational establishments mainly in Hampshire.

Supporting statement

I only work part-time now so I have the time and the desire to get active in ALL. I am a practising teacher and have taught since 1984. During these years I have seen many changes, some good some not so. Due to my irrepressible curiosity I also spend my free days on supply in MFL departments across the county and it is very interesting to see the different approaches to the teaching of languages. I hope that my experience and enthusiasm will be put to good use on the executive council.
