

CLIL

Content and Language Integrated Learning

Show and Tell

Teachers from the Eastern Region CLIL Development Group will share their resources and experiences so far of introducing CLIL in their schools.

All materials are available for download and there will be examples from Y7, 8 and 9 in French, German and Spanish.

The CLIL approach provides a fresh approach to language teaching and learning, providing engaging context and content that stimulates higher levels of cognition and communicative competence in the target language. CLIL describes a broad spectrum of practice, ranging from introducing new content through cultural contexts to the delivery of another curriculum subject through the foreign language.
