**Useful**  
**Resources**

We often hear from colleagues that most CPD and networking events for Teachers of Japanese take place in London, causing difficulties for the many colleagues up in the North of England.

The ALL Japanese Committee, together with ALL Yorkshire, and the Japan Foundation would therefore like to establish a network of Japanese teachers in the North to enable colleagues in the northern regions to meet and share ideas and best practice.

This is the first of – hopefully – many events we would like to offer you. Please support the new network by attending this first event of the Northern Japanese Network.
