Project Planner

**Project name:** Digital Story Telling

**Subject(s):** MFL, Technology

1. **Project Summary**

*What are your students going to do, and why are they doing it?*

Students will create a DVD in their chosen language which tells a story about an aspect of culture, identity, lifestyle and perceptions of that culture. The stories can be from a variety of genres, for example, traditional tales, fantasy, personal interest, social and moral issues and the local area. The project will involve the students in carrying out research into the culture, developing improved digital skills, becoming more independent and autonomous by making decisions about what to include whilst negotiating with their peer group on planning and implementation. Above all, the project will provide an authentic context for language learning where students can develop a range of language skills related to pronunciation, vocabulary and grammar as they need them to progress the work. This project will motivate and engage students as they build on their prior learning and decide for themselves the context, methods, and language structures to be included. The outcome will be a 7 minute DVD which will be presented to others receiving feedback from peers.

2. **Essential Question(s)**

*An essential question should inspire students, require them to conduct serious research, and relate to a real world issue*

- What are the key things about this culture that I want to share?
- How can I make my work interesting and accessible?

3. **Products**

*What do you want students to do/write/create/build?*

The end product will be a 7 minute piece of video in the target language which students have created and designed.

Language Futures was originally developed by Linton Village College as part of a Paul Hamlyn Foundation initiative. Management of the initiative passed to the Association for Language Learning in summer 2015. When using and/or adapting resources, we would ask you to acknowledge the Language Futures initiative and the Paul Hamlyn Foundation as the original publishers of the material.
4. Learning Goals

What do you want students to learn?

Curriculum content

a) Students will be able to say and write in the present tense in the 3rd person to discuss and describe aspects of the culture. They will make appropriate use of adjectives and adverbs to enliven their narrative.
b) When discussing historical events, students will be able to use past tenses, especially in the 3rd person singular and plural.

Identify key skills students will learn in this project. List only those skills you plan to assess.

a) Students will be able to work in groups and negotiate roles
b) Students will be able to access and produce appropriate story boards
c) Students will develop the technical skills to be able to produce a video
d) Students will be able to present their work to an audience and discuss their motivations
e) Students will be able to challenge stereotypes of their language/culture

5. Timeline/Milestones

List the key dates and important milestones for this project. (e.g. check-ins, critique sessions, deadlines for drafts and specific product components)

<td>Teacher presents a model of a suitable video clip which is then discussed and analysed. In language groups, students research and discuss the aspect of their language/culture which they want to present. Out of school challenge is to watch other examples of video clips. Students draw up a draft plan and begin to make a story board, deciding on film location, use of titles.</td>

6. Personalisation

*Say how you will personalise the project, especially for individual students who will need specialized support*

By allowing students to explore aspects that they are interested in and to decide how to develop and present the story, each student produces a personalised project. When teachers provide the space, encouragement and support for students to envision and create personal digital stories, the quality of learning frequently exceeds expectations.

7. Exhibition plan and venue

*Where will the exhibition take place?*

The films will be presented to the class, at assemblies and to the wider community through an evening of a Film Premier. The students will need to plan in detail the format, send invitations, refreshments etc.

8. Resources

The following websites are suggested for aspects of the project work:

- [www.linguascope.com](http://www.linguascope.com) many schools subscribe to this. Languages covered include French, Spanish and Italian
- [www.languagesonline.org.uk](http://www.languagesonline.org.uk) good for vocabulary and grammar in French, Spanish and Italian
- [www.bbc.co.uk/languages](http://www.bbc.co.uk/languages) good for basic steps in Spanish, Italian and Chinese and good for basic listening activities
- [www.masteranylanguage.com](http://www.masteranylanguage.com) topic vocabulary and grammar for Chinese, Italian and Spanish
- [www.wordreference.com](http://www.wordreference.com) a good online dictionary for many languages
- [www.ielanguages.com](http://www.ielanguages.com) an excellent array of phrase banks for many languages, particularly in Italian and Spanish
- [www.busuu.com](http://www.busuu.com) a range of multimedia resources for lots of languages.
