### LOOKING FOR EUROPEAN FILMS TO SHOW CHILDREN?

I think this project could help us to identify suitable films for those teaching young learners:

"Wrap! is a project involving partners in the Netherlands, Finland, Norway, Poland, Scotland and Sweden who are building a catalogue of European films for children with accompanying educational materials, that will be accessible across Europe. The partners in Wrap! argue that apart from festival screenings, there is a very limited offer of suitable European films that are readily accessible for (very) young audiences. During 2016 the project team plan to publish a catalogue of 22 titles, in 24 different language versions. Here's where you can find out more." <http://www.wrapfilms.eu/>
