

Darnelle Constant-Shepherd introduces:

Haringey Local-National-World Links: Sylvia Collicott

[Connections](#) is the work of Sylvia Collicott. Sylvia was a teacher, author and local historian. She believed that knowing our history is key to our equilibrium.

Through the pages of Connections, you will be amazed to read the traces of how the world came to Hornsey and Haringey a north London borough with a diverse population. You will also learn history and the “neglected evidence of the colonised and it raises the issue of bias and omission in the writing of much of British history”.

However, for your language-learning lessons discover how the connections between Philip of Spain is connected to Tottenham. Additionally, how from the Huguenots to French Portuguese, Turkish and many other cultural groups made their home in the area.
