

**Introducing Bamboo**  
**A Chinese language resource-sharing community**  
**created by teachers for teachers**

Dear 老师们 (Teachers)

We're thrilled to introduce Bamboo, a community-driven platform created by teachers of Chinese, for teachers of Chinese, founded and funded by the Swire Chinese Language Foundation.

At its heart, Bamboo is more than just a place to find and share teaching resources – it's a space to connect, collaborate, and grow together. Whether you're an experienced teacher or just starting out, Bamboo is here to support your journey.

◇ What you can do on Bamboo

- Discover ready-to-use lesson plans, worksheets, printables, and activities as well as assessment & examination preparation and professional-development resources, covering a range of curricula and assessment types
- Share your own resources and see them help others
- Get inspired by how fellow teachers teach culture, characters, and language skills
- Ask questions, start discussions, and build lasting professional relationships
- Find out about and get involved in Chinese language- and culture-related events, both local to you and elsewhere
- Follow and contribute to the Bamboo blog page

Why Bamboo? Just like its namesake, we grow stronger when we grow together.

Visit [bamboo.ac](https://bamboo.ac) to join the Bamboo family!

Best wishes

Team Bamboo

PS: To preserve Bamboo's integrity, please note that an institutional email address is needed to join.
